Professional Submission

As a REAL Professional, I will be able to advance the ideals of a natural and healthy lifestyle, attend promotional opportunities, demos with and for our sponsors, and utilize my deep roots in this industry to promote REAL to the fullest! I feel REAL World Tour is the future and, along with REAL, I will be able to fulfill all my own aspirations in this industry under the REAL reputation.

After great interest in the sport of bodybuilding and assisting the promotions of Mr. World in 1995, I decided to advance my training to enter my first event in 1997. From day one, I had a goal to prove to the world that the greatest physique CAN be built, naturally, through hard work, dedication and sacrifice. After winning my first contest, I entered two more rather quickly and was fortunate enough to win each of those. After three quick wins and two overall wins, I decided to take a couple of years to further develop my body.

Through the contests preps, I learned quickly that this wasn't really about competing against anyone, but a true testimony about what I could accomplish with my own body. When I returned to the states, I began competing again. I gathered a lot of second places in the ranks of the NPC and discovered quickly that I had no home competing against the drugs and politics of that organization. I searched out reputable natural organizations and found a home in competing with the NGA, Musclemania and FAME. There were others out there, but I felt I needed to be free of the confinement of one single organization. I gained my pro card with each of them.

From the beginning, I have been fortunate enough to be on multiple covers; Muscle Media Magazine (EAS), Muscle and Fitness, Fitness RX, Body Fitness (Spain and France), MuscleMag, American Health and Fitness (AHF), and Optimum Lifestyle Magazine. I have been featured in many editorials in the above magazines as well as REPS! and Ironman. Optimum Nutrition, American Bodybuilding and EAS have used my image for years on their products, sites and ads. Labrada Nutrition hired me to perform their training video for their employees and has supported my efforts through product and verbal endorsements even though I have been a 100% natural athlete from day one! The FOX network in Guam hired me to complete 100, 15 minute, episodes of fitness minutes to promote health and fitness on their weekly feature covering health, fitness and wellness.

I have worked directly with the likes of Bill Phillips (EAS) in the development of their Colorado facility, products and more, Lee Labrada in product development, advertising and educational materials, and developed the current strength training program for the University of Texas athletics department. More is available on request.
